

Turn Data Into Better Decisions

Martus + MIP Cloud

Transform MIP Cloud data into budgets, reports, and forecasts that drive smarter decisions and better planning.

MIP Cloud (MIP) gives organizations a strong financial management foundation. Martus extends that value with collaborative budgeting, forecasting, and reporting tools that help teams plan more effectively and reduce spreadsheet management.

Together, Martus and MIP help organizations plan collaboratively, improve visibility, create leadership accountability, and create a more strategic financial process.

Best-in-Class Planning Without the Complexity.

With Martus and MIP Cloud, finance teams can:

Reduce manual, error-prone spreadsheet consolidation

Simplify cross-functional, collaborative planning

Improve budget accuracy and accountability

Save time during budget cycles and reporting periods

Gain clearer visibility into financial performance

Manage multiple entities with ease
