

Turn Data Into Better Decisions

Martus + Sage Intacct

Transform Sage Intacct data into collaborative budgets, reports, and forecasts that drive smarter decisions and better planning.

Sage Intacct provides a powerful financial management foundation. Martus extends that value with collaborative budgeting, forecasting, and reporting tools that help finance teams turn financial data into actionable plans.

Together, Martus and Sage Intacct create a connected financial planning experience, giving organizations greater visibility, streamlined budgeting, and the tools to plan confidently for what's ahead.

Best-in-Class Planning Without the Complexity.

With Martus and Sage Intacct, finance teams can:

Reduce manual, error-prone spreadsheet consolidation

Enable collaborative, bottom-up budgeting

Work with accurate, up-to-date financial data

Save time with pre-built, flexible reporting

Forecast and model what-if scenarios with confidence

Give users controlled access to the data they need

Customers Love Martus

"Martus by far is the best budgeting tool we have found that is fully integrated with Sage Intacct."

-Steve W.
Solugenix

"Best Sage Intacct integrated budget planning application"

-Jerry T.
Controller

"Game changer-goodbye Excel budgets."

-Kelly M.
Executive Director
